Figure 1502 Hammer Unions

RYCO has released its new 2" Figure 1502 hammer unions. Designed for the harsh and fast paced environments of the Oil and Gas Industries.

The female & male fittings crimp directly to matched RYCO 5,000psi Hose (RYCO H1324 SAE R13).

- Positive connection to the hammer union
- Reduces excess weight
- Eliminates potential leak paths

Hammer unions for sour gas service are available upon request. Visit online at www.ryco.com.au

* Nut & Seal sold separately
