# CUT-OFF SAW

## RYCS10 CUT-OFF SAW

### RECOMMENDED FOR:

The RYCO RYCS10 Cut-off Saw is designed for use in workshop environments or mobile service vehicles with a focus on safety and functionality.

The RYCO RYCS10 Cut-Off Saw features an ergonomic and compact yet robust design, all-metal body, and high-quality componentry.

### CUTTING CAPABILITY:

Cuts hydraulic hoses up to a maximum outside diameter of 55 mm (2.1/8"), including multi-spiral hoses up to 1.1/4" (-20, DN 31) and other braid hoses up to 1.1/2" (-24, DN 38) nominal inside diameter.<sup>1</sup>

The RYCO RYCS10 Cut-Off Saw features a 250 mm (10") slotted steel cutting blade.

### VOLTAGE:

Available in 240V single phase. Other voltages available upon request.

### SAFETY:

Ergonomic Operating Lever with integrated Power Switch for the safe and controlled cutting of hydraulic hoses.

Safety Blade Guard and Emergency Stop Button provides operator protection.<sup>2</sup>

### CONTAMINATION CONTROL:

Debris generated from cutting hoses is collected in a Waste Collection Tray that can be easily removed and cleaned.

Large 76 mm (3") outlet for connection to fume extraction.

### SPECIFICATIONS:

### RYCO STEEL CUT-OFF SAW BLADES:

RYCO Steel Cut-Off Saw Blades are designed for optimum hose cutting ability, providing safe, efficient cutting of braided and multi-spiral hoses.

Matched to the RPM of RYCO Cut-Off Saws they are the only saw blades recommended for use with RYCO Cut-Off Saws. They are not suitable for use on non-RYCO Cut-Off Saws.

REPLACEMENT PART NUMBER	BLADE SIZE	
	mm	inch
RYCSW10	250	10

NOTE: 1) When used with RYCO Hose Support Pins. 2) Appropriate Personal Protective Equipment must be worn while operating the RYCO RYCS10 Cut-Off Saw.
